A LIVING CHRISTMAS GIFT GROWN IN YOUR OWN HOME BY YOURSELF

Why not make your Christmas gifts in the form of a pot of our famous "Excellentia" strain of Lily of the Valley - the same strain that has won for many years first prizes at the various important Spring Flower Shows - grown by yourself in your own home?

The pot itself is beautiful, designed by Stangl and made by the world famous Fulper Pottery Company. It can be supplied in blue, green or white.

We supply everything you need, including 12 "Excellentia" Lily of the Valley pips, especially prepared bulb fibre, sufficient for your needs, the pots and planting instructions - all for the very low price of \$2.25.

They can be brought into flower in three weeks and we will ship them to you in time to have them bloom for Christmas. Should you prefer to have us ship them direct to your friends, just mail us your card and the package will reach your friends in time for Christmas.

Should you desire to use your own container, or refill at any time the Stangl pot, we can supply "refills", consisting of 12 "Excellentia" Lily of the Valley pips and sufficient especially prepared bulb fibre at \$1.35.

The pots alone can be supplied at 90¢ each.

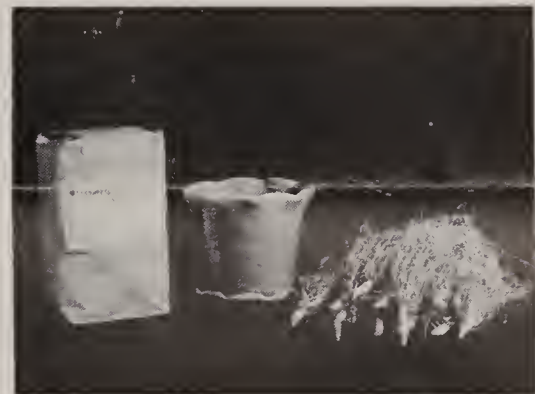

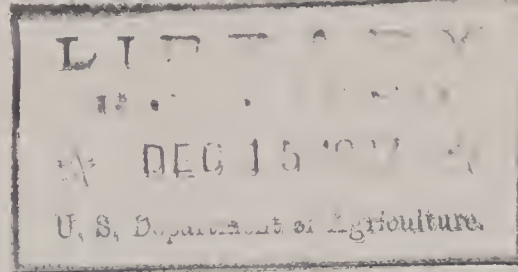

By planting a new supply of "Excellentia" Lily of the Valley each week throughout the winter, a continuous flowering of this exquisite and choice plant can be had.

Just indicate on the attached order blank your wishes and we will make shipment at the proper time.

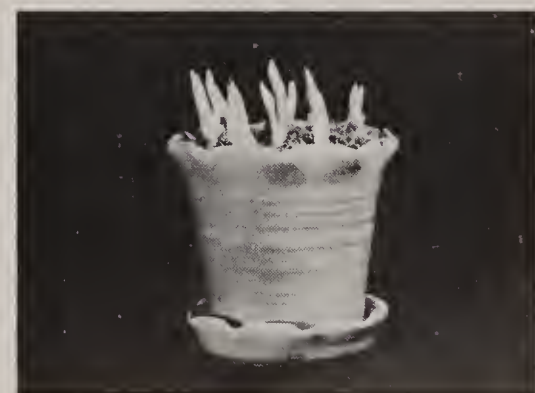

Yours very truly,

JOHN SCHEEPERS, INC.
